Hi,

We welcome you to our new support forum. It might be a bit buggy at the start, the preview function does not seem to work. But we are working on it.

Please ask your questions or post suggestions to help us improve Kornitop.
We will try to answer as soon as possible but please be patient if we do not respond right away.
Kornitop is a work of love, we do it on our extra time.

Thank you for using Kornitop!
