## Multiple copies of clip

Posted by Paula Greyling - 2007/05/02 13:44

---

Hi Gert,

Could you tell me which version of Kornitop you are using? If you are using any version prior to 0.7.0.1 this problem is to be expected.

Kornitop 0.7.0.1 fixes this behavior.

See: Kornitop development news

"1. Bug fix related to the "Sleep" functionality.

This caused memory related crashes especially when used with Microsoft Office products, in particular Excel, where frequent copying and pasting is common."

=====  
Download

[http://www.chileserve.net/downloads/kornitop/kornitop\\_setup\\_0701.exe](http://www.chileserve.net/downloads/kornitop/kornitop_setup_0701.exe)

I hope this solves your problem.

Kind regards,  
Admin

Thanks!

I had an older version "0.6.6.2"

I installed the new one and the problem disappeared!

Thumbs up for Kornitop

Gert
