
Kornitop in Spanish, French and Turkish

Posted by Paula - 2007/04/05 15:55

Just to let everybody know,

Kornitop Clipboard utility is soon coming out in a multilingual version:

Afrikaans, English, French, Spanish, Turkish and German (if we find somebody to localize it).

All our thanks to Binnur Tuncel van Pomeran for graciously contributing the Turkish language translation.

All interested volunteers are welcome!

Send us a mail to Tech support or post on the Support Forum.

ChileServe

Kornitop is a Free Clipboard utility - Clipboard application, that allows you to record and save an infinite number of text clips and to reuse any of them easily thanks to it's fast recursive search function.
